

# PaperTrends - Online News Analysis

*Denis Kuliček (4409612)*

These are the tasks I carried out for the Data Visualization project

- Look for inspiration and possible visualizations on the web.
- Crawling the data from The Guardian, Time, BBC and Reddit.
- Design of the visualizations and choices about what to display and how to encode the most important aspects of the data in the visualizations.
- Implementing Bubble chart, Word Tree and Stacked bar plot.
- Debugging of the code.
- Creation of the website to deliver the visualizations.
