

PaperTrends - Online News Analysis

Stefano Imoscopi (4407245)

These are the tasks I carried out for the Data Visualization project

- Look for inspiration and possible visualizations on the web.
- Design of the visualizations and choices about what to display and how to encode the most important aspects of the data in the visualizations.
- Implement the word cloud visualization.
- Look for documentation and references.
- Writing of the project report.
- Styling of the website to deliver the visualizations.
